

# global/u.s. missions

Eagle Brook's missions extend their reach around the world with the following global opportunities. These trips are coordinated through ministry areas such as Womens, Kids, and Singles—so check with the pastor of the ministry area you are involved with if you are interested in participating.

## **BRAZIL**

EBC helps train church leaders and works alongside Nelio and Flavia Paiva who pastor an Eagle Brook Church plant, or “daughter church” in their home community of Brasilia, Brazil. It's called Igreja Viva, “The Living Church.”

## **ETHIOPIA**

Experience the wonder of Ethiopia, while sharing God's hope with people who may have never heard the message of Jesus Christ. During short-term missions, Eagle Brookers have helped encourage missionaries and leaders, constructed building projects for youth, partnered with local church organizations, and so much more.

## **UKRAINE**

In this area formerly dominated by communism, men, women and children are finding hope through Jesus Christ. In the past, Eagle Brook teams have provided day camps for kids in a number of area villages, through work with our sister church in Ratsevo, Ukraine.

## **MOZAMBIQUE**

Eagle Brook has a partnership with World Vision to serve the community needs of food, water, AIDS response, education and spiritual development in Mozambique, Africa as part of the God's Amazing Church Campaign. Child sponsorship is another way for Eagle Brookers to become personally involved in the lives of those living in Zambezia, Mozambique. Learn more at [eaglebrookchurch.com](http://eaglebrookchurch.com). Each year, a team of 8-10 Eagle Brookers will have the opportunity to travel there, better understand the vision, and return updates to the church.

## **NORWAY**

Eagle Brook has recently created a partnership with the Willow Creek Association to help bring the Global Leadership Summit, which brings world-class leadership training to church leaders, to Norway. The Global Leadership Summit will take place in Norway in October, where we will send three teams, to three separate sites across the country. These teams will establish relationships and serve as greeters, ushers, janitors and parking lot people for the 1,200 church leaders in attendance.

## **KATRINA RESTORE CORPS: RESTORING HOPE AND HOMES**

Eagle Brook partners with STEM Ministries to help with Hurricane Katrina recovery. A local disaster relief organization has organized and funded various work projects to rebuild and serve those who have no means to help themselves in Slidell, Louisiana. Projects vary depending on the need at the time the team arrives; however, we anticipate the projects to include gutting homes, painting, yard clean up, construction and reconstruction. While there, we'll be working alongside some of the victims of the hurricane, and will be able to share God's love and hope with them through conversation and prayer.
